

Ramavtar Varma

Full stack Developer

As a recent graduate with a passion for full-stack development, I bring a solid foundation in Web development, Java and MySQL with basic knowledge of Angular, Spring Boot, TypeScript, Postman, Bootstrap. I have successfully completed 2-3 projects using these technologies, demonstrating my ability to create dynamic and responsive web applications. I am eager to contribute my skills and seeking an entry-level Full-Stack Developer position at a company, where I can continuously grow my knowledge.
